

Questions submitted at Pop-up Pop-in event 14/3/16

Site Name / Number	Question / Comment
various	I would support SHLAA 3500 and 1089, however I have concerns about development in The Spring and The Nursery due to flooding
623	<p>Have the owners of this land been informed of the Housing Land Availability Assessment?</p> <p>I do not think that they have been informed.</p>
Southcliffe	This seems a very suitable location and sympathetic to the area, not over developing the site
Route of suggested relief road	<p>What is the consultation/approval process for the proposed route of ring road?</p> <p>Concerned that it seems to come with associated further house development to make it economically viable. Would there be net benefit?</p>
Fiddington Nursery sites	<p>What are you going to do about access and volume of traffic on the High Street?</p> <p>Level of support to create a residential development at the site = 1 (least supportive)</p> <p>Access and traffic volume are unaddressed issues, making this a ludicrous proposal</p>
N/A	Until the traffic situation is sorted, extra housing development should be put on hold
Southcliffe	Would prefer a smaller group of houses – less impact on infrastructure and schools / GP surgery
Longfield	<p>Parking – a lot of houses seem to be planned – most houses own 2 cars</p> <p>Pedestrians on The Spring – Very narrow pavement currently – what will be done to ensure the safety of school children in walking past</p>
Southcliffe	I feel this is the best site for the village, as its out the way and not too big
Longfield	<p>Yes agree that there is a need for new homes</p> <p>Maybe a large site on the outskirts of the village</p> <p>Yes, agree The Spring is a suitable location for development as its on the outskirts of the village</p> <p>The volume of traffic is huge at the moment; my concern is with added traffic the village will become inaccessible!</p>
